Imagine spending 5 hours a day just to get 5 gallons of dirty water.
8-year-olds should be going to school, not walking for water.

water1st.org
$85 provides a child with clean water and a toilet for life.

water1st.org
Imagine spending 5 hours a day just to get 5 gallons of dirty water. Today, 200 million women and girls are walking for water. water1st.org
5 million girls cannot go to school because they are carrying water.

water1st.org
Today, 5,000 children will die from preventable water-related diseases.
Imagine if the journey to your kitchen sink took 5 hours.
Imagine bathing your child in a filthy river. Mothers in Bangladesh do this every day.
Imagine walking from the Space Needle to Lake Washington to wash your clothes.
Imagine strapping a 25-pound water container onto your daughter’s back every morning.
If you lived in Honduras, you’d have to make this walk for water again later today.

water1st.org
If every American gave $5 a month, we would have clean water for ALL in 5 years.

water1st.org
6-year-olds should be going to school, not walking for water.
Just $5 a month provides a child with clean water for life.

water1st.org
The amount of time women in Ethiopia spend carrying water is the same time as a full-time job. But their only pay check is dirty water.
